🌟 Overview

Experienced and reliable **Flutter & Kotlin Developer** with over 3 years of success in building and deploying high-performance mobile applications and mini-games for international clients. I specialize in cross-platform and native Android app development, helping startups and enterprises bring their ideas to life through stunning UIs, scalable architecture, and agile development practices.

Proficient in collaborating with clients to transform requirements into robust mobile solutions using **Flutter, Kotlin, Firebase, REST APIs**, and **clean architecture** principles.

🔧 Technical Skills

Languages & Frameworks: Dart, Flutter, Kotlin, FlutterFlow

State Management: BLoC, Provider, GetX, MVVM

Tools & Platforms: Git, Bitbucket, Firebase, JIRA, Android Studio, Xcode

Other Skills: REST APIs, Clean Architecture, Firebase Auth, MQTT, Speech-to-Text, UI/UX, Payment Gateway Integration

👛 Projects Experience

Kotlin Projects

1. BizConnect CRM App

A native Android CRM app for sales and field agents to manage leads, tasks, and follow-ups with offline capabilities.
